Your success is our priority

Bucher Maestro, a significant breakthrough

With Bucher Maestro option, your Bucher XPert press can **carry on the 4 phases** of a complete cycle **automatically**: feeding, pressing, emptying, cleaning.

A special software and adapted equipment ensure Bucher Maestro operation.

4 weight indicators under the legs

Flowmeter for juices

Doors spray manifold

Tank cleaning nozzle

You improve your productivity, get extensive information and gain serenity

- **25% of higher performance**

Don't leave your press idle. Let your press operate concurrently at the end of the day.

- **Staff reduction**

The only task is to launch the whole cycle.

- **Control of your process**

- No risk to launch the wrong feeding, pressing or emptying program.
- Permanent display of the extraction rate.

- **Faster draining of free-run juices**

The new feeding process allows it.

Fast, easy implementation

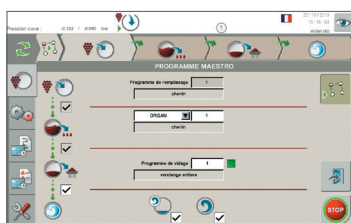

1 I program

- **Feeding:** mass of grapes to fill in and required rotations.
- **Pressing:** automatic, sequential or Organ program.
- **Emptying:** 100% controlled by Bucher Maestro.
- **Cleaning:** quantity of water to rinse the inner tank.

2 I launch and I choose the phases to be carried on

- Feeding ► pressing
- Pressing ► emptying
- Emptying ► cleaning

3 I can follow up the cycle without interruption

- **The mass** of grapes in the tank and the feeding rate.
- **The volume of** extracted juices.
- **The extraction rate.**
